Education

Full Stack Web Developer
Neoland
Madrid
01/2023 - 04/2023

Diseño UX/UI
CoderHouse
Madrid
09/2023 - Actual

Skills

JavaScript	Typescript	CSS	MongoDB
React.js	Angular	Node.js	Figma
React Native	HTML5	Express.js	Github

Experience

Freelance Project Lucas Quiere Saber

FUNDTV / Madrid / Actual

Currently leading an ongoing web project developed with **React and Redux**. This initiative aims to inform users about their services and provide them with an effective way to contact the company. Using React, I created a dynamic and easy-to-use UI, and Redux effectively manages the state of the application.

Software Engineer Trainee

Chattigo / Madrid / may 2023 - august 2023

Implementing and improving user interfaces (UI) and functionalities in Front-End code using **Angular** and **TypeScript**. Actively participating in identifying, resolving, and performing code revisions and bug fixes to ensure optimal performance and user experience.

Freelance Project TestBusters

Neoland / Madrid / may 2023

Web application totally responsive designed using **JavaScript, React, Node.js and Express.js**. All users have the possibility of creating their own tests on the subject of their choice. Create an account on the application, so you can create tests, score them, add comments, follow other users, view their creations and scores, access a leaderboard where you can compete to see who achieves the best result.
